

Post Chemical Peel Treatment:

After Peel Treatment

- Your skin may be pink after treatment up to 2-3 days.
- Avoid sun exposure and wear a hat when outdoors. Sunscreen with an SPF 50 is highly recommended.
- Avoid heating your skin. No strenuous exercise, hot water, saunas, spas, etc.
- If peeling occurs DO NOT PICK/PULL the skin. This can cause scarring.
- Cleanse face with a gentle cleanser and cool water. Do not use a wash cloth or scrubs.
- Moisturize daily as often as needed to alleviate dryness.
- Resume exfoliating or Retinol products 2 weeks after your last peel in a series.

Post-Treatment 3-5 Day Home Care Products recommended

- Gentle Cleanser
- Phyto Corrective Gel Epidermal Repair
- SPF50 physical defense
